the retail outlet is open for shopping unless there are good reasons. There are no local policies in place and each case will be determined on its merits.

5.16 Policy in respect of assessing applications to prevent public nuisance:

The following criteria will be considered when assessing applications within the context of preventing public nuisance:

- Environmental quality;
- Residential amenity;
- Character of function of a particular area; and
- Nature of the proposed activities to be provided at the premises.

The licensing authority will normally consider favouring applicants wishing premises in noise sensitive areas to remain open after the regular closing time on a specified number of occasions (such as on Bank Holidays and weekends preceding Bank Holidays or special occasions) providing that:

The number of extensions has been included in their operating schedule and steps to address public nuisance have been considered;

AND

The authority is given prior notice of each proposed later opening.

In the absence of relevant representations, however, the authority will grant the application.

Applicants may also consider using the Temporary Event Notice procedure for special occasions or Bank or special Holidays.

Where relevant representations are received, the licensing authority will consider stricter conditions with regard to noise control in noise sensitive locations such as residential areas.
