Analysis of Teachers and Headteachers in Wales as at 18th September 2012.

The information included in the following tables has been sourced from the General Teaching Council for Wales' teacher records. The information is correct as at 18th September 2012 however, there are a large number of employment changes within the sector at the start of the autumn term.

Unfortunately, GTCW was not able to provide specific figures for faith schools as these cannot be identified from within the sector. The data relates to the first employment held on a teacher's record regardless of whether they are employed by more than one LEA. From the 1st September 2012 the Welsh Government introduced a new sector category of "Middle" school and there are 4 such schools established so far. 4,839 teachers whose records indicate they are undertaking supply work have **NOT** been included in the tables below as their sector work is unknown. In addition, 410 teachers working in either the Independent sector, FE/HE, England or Overseas have **NOT** been included in the tables below and 3,536 registered teachers have blank employment records or are not working as qualified teachers and so have **NOT** been included in the tables below.

The "Other" column under sector in all tables may include teachers with one of the following employment descriptions:

Notes:

• some schools are open on Welsh Government records but are not staffed as they are either pending closure or have only recently opened;
• Some Pupil Referral Units do not have and will not be appointing a Headteacher;
• Some Headteachers are in charge of more than one school;
• Some schools have vacant posts with no acting Headteacher or the staff numbers of a school are too small for a Headteacher to be appointed.
