

Bridgend County Borough Council

Post Inspection Action Plan

Glossary of terms & abbreviations

4-5-6+ Model	This is a way of describing needs so that there is a common understanding by everyone. It has been added to (hence the plus) because, originally written to map the needs of children and young people, it now also includes needs of families. It includes the 4 tiers of need (from basic needs through additional and complex to critical needs); five (plus one) dimensions of need (social, physical, emotional, cultural and learning needs plus economic); and 6 outcomes which we would want all to enjoy: learn and achieve; participate and enjoy; give and receive respect; be healthy; be safe, and be confident and self-reliant.
APR	Annual Performance Review
ASD	Autistic Spectrum Disorder
ALN	Additional learning needs
APR	Annual Performance Review – link adviser report on school

CfBT	CfBT is a world authority on school inspection and school improvement. They work directly with schools and governments improving education outcomes through evaluation, training and professional development
CIN	Children in Need

There is an obligation in place for councils to provide a range of services to 'children in need' in their area if those services will help keep a child safe and well. A 'child in need' may be:

- disabled
- unlikely to have, or to have the opportunity to have, a reasonable standard of health or development without services from a local authority; or
- unlikely to progress in terms of health or development; or
- unlikely to progress in terms of health or development, without services from a local authority
