594 LAND OFF CEFN GLAS ROAD, PENYFAI

The Group Manager Development reported that in October 2009, a hedgerow which was located south of the Penyfai settlement boundary and north of the Bryntirion settlement boundary on the Cefn Glas Road, Penyfai was believed to have been removed in order to facilitate repair works to a railway bridge undertaken by Network Rail. It had since come to light that the hedgerow was removed not by Network Rail but at the request of the landowner and without the consent of the local authority. The hedgerow was protected under Regulation 3 of the Hedgerow Regulations 1997 by virtue of exceeding 20 metres in length and being adjacent to agricultural land.

He reported that the length of hedgerow totalled approximately 112m with approximately 50m of it removed in October 2009. The hedgerow contained a number of woody species and also at least three ground fauna woodland species. The hedgerow is located in a rural lane and is considered to greatly add to the visual amenities of the area and surrounding countryside and had been in existence since 1885. Its removal was considered to have seriously harmed the visual amenities of the area.

The Group Manager Development reported that the Council had power to issue a "Hedgerow Replacement Notice" to the owner of the land requiring reinstatement of the hedgerow.

RESOLVED: That the removal of this hedgerow is considered to be in contravention to Regulation 5 of the Hedgerows Regulations 1997 and permission is granted to issue a Hedgerow Replacement Notice on the owner of the land on which the hedgerow was located.

The Development Control Manager drew Members attention to the Amendment Sheet which included the comments of the Highways Officer in relation to the 'footpath' running around the back of the new school between Cae Ffynnon and the community route.

RESOLVED: That the report of the Corporate Director - Communities be noted.

The only change in the Bridgend THI SPG arising from the public consultation are an explanatory paragraph that it meets the requirements of the Strategic Environmental Assessment Regulations and clarification of the responsibilities of developers and building owners in relation to protected species and the potential impact from refurbishment and rebuilding.
