## **DEVELOPMENT CONTROL COMMITTEE**

**3 SEPTEMBER 2015**

**AMENDMENT SHEET**

**The Chairperson accepts the amendment sheet in order to allow for Committee to consider necessary modifications to the Committee report to be made so as to take account of late representations and corrections and for any necessary revisions to be accommodated.**

<b>ITEM NO.</b>	<b>PAGE NO.</b>	<b>APP. NO.</b>
<b>8b</b>	<b>35</b>	<b>P/14/185/FUL</b>

The site was visited by the Development Control Committee on 2 September 2015. A representative of the Community Council and one of the residents registered to speak were in attendance.

Since the publishing of the report an agent on behalf of TDW Distribution Ltd has submitted a further objection to the planning application. It is clarified that, whilst there is no objection to the principle of residential development on the site, given the previous planning permissions granted historically, the major contention relates to the Company's operation and any impact the granting of residential planning permission may have on the currently unfettered operations.

Confirmation that the Council are happy with the conclusions of the Noise Assessment is requested and that there will be no potential for future residents to complain against noise or operations emanating from the haulage yard, which has no operating restrictions. This issue has been addressed by Condition 17 proposed to be attached to any planning permission that the Authority may be minded to grant.

In addition, this respondent raises general comments in respect of the layout and considers that the amenity space for the dwellings on Plots 15-24 is limited. The nature of the rear private amenity space for these plots has been described within the Appraisal Section of the report with an explanation that these plots will have an average of 6m of amenity space to the rear of the dwellings. It has also been highlighted that the section of Waterton Lane that runs along the northern boundary of these plots will no longer be open to vehicular traffic.
