6. Presentation to Council by the Chief Executive of Awen Cultural Trust

Decision Made	The Chief Executive introduced a report, in order to advise Members of a presentation proposed to be
	delivered by representatives of Awen Cultural Trust.

Representatives of Awen Cultural Trust including the Chief Executive Mr Richard Hughes (assisted by Ceri Evans), then gave a power point presentation on the work of the Trust for members information. This covered some key points and milestones, that included the following:- Awen Cultural Trust's aim is to 'Make People's Lives Better' through the cultural facilities and activities within those facilities that they provide; The partnership with BCBC commenced in 2015 and was for a term of 20 years – and 8 years have past since an agreement to work jointly commenced; The Shared Contract for continuation of service provision between Awen Cultural Trust and BCBC was for the duration of 20 years (commencing in 2015), with savings of over £800,000 having been made from the operation of the service during this period; Registered Charity Profits are not distributed externally but are re-invested in the business;
 Social inclusion and tackles social isolation; Early years; Literacy and transferable skills; Digital competency and inclusion; Independent lives; Volunteering and Local Engagement; Enjoyment and activity in the natural environment; Economic impacts.
The Chief Executive of the Trust assured Council that income made from the partnership arrangement supported the re-development/refurbishment of Health, Leisure and Wellbeing establishments as well as Country Parks.
The partnership had also assisted in the support of library services throughout the County Borough, including through mobile facilities.
Following the conclusion of the presentation, the Officers responded to questions from Members.
Some examples of these were as follows:-
•Bryngarw Country Park is an excellent facility. Could we look to expand the likes of B-Leaf and Wood B through Employability work (or through an Invest to Save process), with the view of giving more people the

	 opportunity of being involved in the services they provide. It was extremely important to ensure that people with disabilities and disadvantaged families were able to access cultural facilities within the County Borough, in order that they may lead more fulfilled lives; •The library in Blaengarw is not entirely fit for purpose, with little in the way of ICT equipment and a poorly lit environment. Improvements are required there. Also, could we look to advertise this facility other than just on-line where some of the older generation do not access; •Congratulations were extended to Awen for achieving funding from the Arts Council of Wales. This was a significant achievement; •If there is a situation whereby two major cultural facilities are both closed for improvements to be made to them at the same time, ie Grand Pavilion, Porthcawl and the Maesteg Town Hall, what sort of financial impact would this have on Awen, through for example, loss of income at two major venues For further details of discussion on this item, please click here. RESOLVED: That Council noted the presentation and accompanying report.

7. Corporate Plan Delivery Plan Targets

Decision Made	The Chief Executive submitted a report, the purpose of which, was to present for approval the proposed annual performance targets for 2023-24 for the performance indicators in the Corporate Plan Delivery Plan (CPDP) that supports the Council's new Corporate Plan.
	Examples of some of the Performance Indicator and Target data was shown in paragraph 4.1 of the report, with more detailed information contained in Appendix 1.
	Some of the questions asked on the report and comments made, which were responded to be Officers were:-
	• Engagement with Overview and Scrutiny on the Corporate Plan and its targets were commended as was the contribution of Officers in producing the document. The Chairperson of the Corporate Overview and Scrutiny Committee acknowledged that Scrutiny would monitor the performance of the Delivery Plan against the proposed indicators, as well as aligning the Forward Work Programmes of each of the Authorities 4 Overview and Scrutiny Committees with these, in order to ensure that progress against the Council's seven Wellbeing Objectives and five Ways of Working as contained in the Corporate Plan are

	 adequately assessed. Achievement of the Performance Indicators are in part likely dependent upon these being financially supported through the Council's Budget. Targets for Performance Indicators should be made as clear as possible, with the date for the achievement of each of these being challenging but at the same time realistic also. Further questions and responses in relation to the report ensued during the course of this item. Following the conclusion of the question and answer debate, it was RESOLVED: That Council:- Considered and approved the targets for the Corporate Plan Performance Indicators shown in Appendix 1 to the report.

8. Capital Programme Update Quarter 2 2023-24

Decision Made	The Chief Officer – Finance, Performance and Change presented a report outlining an update on the Capital Programme for the above period.
	She explained that the Prudential Code for Capital Finance in Local Authorities requires Local Authorities to have in place a Capital Strategy which demonstrates that the Authority takes capital expenditure and investment decisions in line with service objectives and properly takes account of stewardship, value for money, prudence, sustainability, and affordability. To demonstrate that the Council has fulfilled these objectives, the Prudential Code sets out a number of Indicators that must be set and monitored each year. The Council's Capital Strategy 2023-24, incorporating the Prudential Indicators for 2023-24, was approved by Council on 1 March 2023.
	Members raised a considerable number of questions on the report, examples of which are as follows:-
	• In terms of the Waterton upgrade scheme, this has now slipped to 2024/25, with the budget allocation for this being predicated upon land sales that are now deemed to be unviable. What will be the scope of the project when it is revisited and given the financial pressures facing the Authority, where will the £3.5m originally set aside for the project originate from.

	 I note that £1.9m has been allocated towards play park areas, but to date, only £32k has been spent on these so far this year. Are we confident the remaining allocation will be spent this financial year and did we have a projected spend on the level of funding that would have been committed at this current stage of the financial year. What proportion of the Capital Programme will generate additional revenue or savings such as, for example, using monies to purchase housing with the view of lowering our spend on homelessness. In terms of the Public Rights of Way Improvement Grant, will this be put in place next year, so that
	 we can maximise that investment in footpaths improvement/provision etc, throughout the County Borough When will Council receive an update on the cost of the works required to update and repair the Bridgend Indoor market and also, when will these works take place.
	 Llynfi Development Programme - £2.177m, it's disappointing to see that we have not been able to convert that loan to a non-repayable grant. As the Feasibility Study carried out has revealed that such lan- cannot be used for housing development, could the land be re-purposed for environmental or recreational use.
	 Are there any future plans to roll-out to other County Borough schools the iPads recently provided to pupils at Brynteg Comprehensive School.
	These questions were responded to by the Chief Executive and Corporate Directors.
	Further questions and responses to these were shared at the meeting.
	RESOLVED: That Council:
	 noted the Council's Capital Programme 2023-24 Quarter 2 update to 30 September 2023 (Appendix A to the report).
	 noted the slippage of £15.809 million to 2024-25 as detailed in Appendix B.
	approved the virements between schemes as detailed in Appendix B.
	 further approved the new schemes/additions to the capital programme totalling £0.737 million as outlined in Appendix B.
	• further noted the projected Prudential and Other Indicators for 2023-24 (Appendix C).

	The average interest rate for debt was 4.69% (excluding Salix borrowing which is interest free) and for investments it was 4.42%.
	The Council has a manageable maturity structure of borrowing, with its current debt repayable at various points over the next 30 years.

	The report was submitted in order to update Members on the present financial situation in relation to BCBC borrowing and lending monies, the Officer advised.
