The Team Manager Licensing submitted a report regarding an application by Kevin Neck to licence a BMW 520 D vehicle registration number Y77 KAB as a private hire vehicle to seat 4 persons. The vehicle mileage on the last maintenance report on 10 June 2016 was 55572 miles.

Mr Neck attended in support of his application and the Sub-Committee adjourned the meeting in order to view the vehicle. On inspecting the vehicle, the mileage was confirmed as 58,947 miles. The vehicle was pre-owned and first registered at the DVLA on 19 April 2012. The Team Manager Licensing informed the Sub-Committee that the application fell outside the policy guidelines for the first licensing of private hire vehicles.

The applicant informed the Sub-Committee that he was not currently licensed to drive a vehicle with BCBC but if his application was successful he proposed to work alongside Diamond Executive Travel covering corporate work and executive days out.

The Sub Committee queried the delay between him taking ownership of the vehicle on 30 August 2016 and date of his application. He explained that he had applied for his DBS, taken a medical check, had a Viking Mirror meter fitted because he wanted all the basic requirements in place before he submitted his application.

The Sub Committee asked him where he would be based and he replied that he would be working from the main office in Bridgend. He currently lived in Pontypridd but was looking to move back to Bridgend. He currently held a PSV Licence and worked for Cardiff Bus but would stop driving for them if his application was successful.

The Sub-Committee retired to consider the application and on their return, it was:

The vehicle was wheelchair accessible with ramp access only and no tail lift fitted. On inspecting the vehicle, the mileage was confirmed as 72,317 miles. The vehicle was pre-owned and first registered at the DVLA on 25 July 2013. The Team Manager Licensing informed the Sub-Committee that the application fell outside the Private Hire Vehicle Policy approved by Licensing Committee.

The applicant informed the Sub-Committee that in the event of his application being successful the vehicle would replace an older vehicle which had been in service for more than 4 years. The vehicle would be used for school runs and private hire. The applicant submitted an examination report showing that the vehicle had been tested on 9 November 2016 and this would be followed by six monthly tests.

The legal advisor explained that if a licence was granted it would be subject to conditions relating to the carriage and storage of ramps.
