# 3.2 Workforce planning

- Identify any critical workforce issues that are expected during the year, which impact on the Directorate's ability to deliver its improvement priorities, MTFS commitments and other key services. Workforce issues may include, but are not limited to, the following;
  - Skills gap/shortages
  - Succession planning
  - Recruitment challenges/Hard to fill posts
  - Legislative impact
  - Retention challenges
  - Staffing reduction implications

| Workforce Issues       | Challenge   | Link to Business Plan/<br>Corporate Plan/<br>MTFS/ Service Priority | Lead Officer  |
|------------------------|---|---|---|
| Early Help<br>services | Reliance on grant and uncertainty around future commissioning arrangements.   | Commitment 2.2.7<br>Commitment 2.2.8<br>Commitment 2.3.1            | Group Manger Early<br>Help and Family<br>Support      |
| Energy Team            | There have been some vacancies and pending the outcome of the service review we are not able to fully recruit to this team so this has delayed the ability of the team to take forward all of its commitments   | Commitment 3.3.5  | Group Manager Built<br>Environment                    |
| Built<br>Environment   | There has been difficulty in recruiting and retaining staff. There is an ongoing review of the service which has increased uncertainty and this combined with significant competition within the market for specialist posts has contributed to these difficulties.   | Commitment 3.4.1  | Group Manager Built<br>Environment                    |
| SEN<br>statementing    | ALN reform will mean that statements are no longer required. However IEPs will replace these. There is concern over impact of these changes and the resources required meeting this requirement as the age range for those eligible for LA support changes from 19 to 25. The complexity of any new process means additional uncertainties. | National legislative changes  | Group Manager<br>Business Strategy<br>and Performance |
| ALN reform             | Impact of ALN reform is unknown at the moment across the service  | National legislative changes  | Group Manager Inclusion and School Improvement        |

#### 3.4 Future property needs

#### **Strategic**

The Band B workstream of the 'Strategic Review into the Development and Rationalisation of the Curriculum and School Estate for Primary, Secondary and Post 16 Education' has identified potential future property needs relating to school buildings from 2019-24.

In particular this may mean:-

- Possible increase in places/new school to cater for additional pupils arising from housing developments identified in LDP;
- An expansion of Welsh Medium provision in the county borough;
- A possible rationalisation of school places to meet the LA's policy on all through primary provision

The Post 16 workstream of the same review will identify the proposed structure of post 16 education in Bridgend for 2020 and beyond. The LA is working closely with comprehensive schools and Bridgend College to identify options for the delivery of post 16 education and training in the future across Bridgend.

# **Operational**

To support the smarter use of resources, there will be a requirement to relocate the **Youth Offending Service** from their current base at Tremains Road, Bridgend to the Civic Offices by April 2018. The team works with challenging young people so careful consideration will need to be given to the implications of this service being relocated to another venue.
