

BRIDGEND COUNTY BOROUGH COUNCIL

INFORMATION REPORT TO CABINET

17 JULY 2018

REPORT OF THE INTERIM HEAD OF FINANCE & SECTION 151 OFFICER

TREASURY MANAGEMENT - QUARTER 1 2018-19

1. Purpose of Report

1.1 The purpose of this report is to:-

- comply with the requirement of the Chartered Institute of Public Finance and Accountancy's (CIPFA) Treasury Management in the Public Services: Code of Practice (the Code) to produce interim Treasury Management reports
- provide a summary of the Treasury Management activities from 1 April to 30 June 2018
- report on the projected Treasury Management and Prudential Indicators for 2018-19

2. Connection to Corporate Improvement Objectives / Other Corporate Priorities

2.1 This report assists in the achievement of the following corporate priority/priorities:

- Smarter use of resources – ensuring that all its resources (financial, physical, human and technological) are used as effectively and efficiently as possible and support the development of resources throughout the community that can help deliver the Council's priorities.

2.2 The Treasury Management Report is integral to the delivery of the Corporate Improvement Objectives as the allocation of resources determines the extent to which the Corporate Objectives can be delivered.

3. Background

3.1 The Council's Treasury Management activities are regulated by the Local Government Act 2003 which provides the powers to borrow and invest as well as providing controls and limits on this activity. The Local Authorities (Capital Finance and Accounting) (Wales) Regulations 2003 as amended, develops the controls and powers within the Act.

3.2 The Council is required to operate the overall treasury function with regard to the Code. This includes a requirement for the Council to approve a Treasury Management Strategy (TMS) before the start of each financial year which sets

out the Council's and Chief Financial Officer's responsibilities, delegation, and reporting arrangements. Council approved the TMS 2018-19 on 28 February 2018.

- 3.3 The Welsh Government (WG) issued revised Guidance on Local Authority Investments in April 2010, which requires the Council to approve an Investment Strategy prior to the start of each financial year and this is included in the TMS.
- 3.4 The Council is also required to undertake any borrowing activity with regard to the CIPFA Prudential Code for Capital Finance in Local Authorities. The Council's adoption and implementation of both the Prudential Code and the Code of Practice for Treasury Management means that its capital expenditure is prudent, affordable and sustainable, and its treasury practices demonstrate a low risk approach.
- 3.5 CIPFA published new editions of Treasury Management in the Public Services: Code of Practice and the Prudential Code for Capital Finance in Local Authorities in late December 2017 however the TMS 2018-19 (and therefore this report) have been produced using the 2011 Codes due to the timing of the changes and there was still some information which had yet to be published when the TMS was produced. Any revision required to the TMS for 2018-19 will be reported to Council for approval as part of the Half Year Monitoring Report.
- 3.6 In March 2018, the Welsh Government also published an amendment to the Local Authorities (Capital Finance and Accounting) (Wales) Regulations which enables the Council to invest in certain instruments which were previously treated as capital expenditure for example a money market fund, without the potential revenue cost of Minimum Revenue Provision (MRP) and without the proceeds from sale being considered a capital receipt.
- 3.7 For the period 1 April to 30 June 2018 this report covers the following areas:-
 - The Council's treasury position
 - External Context
 - Borrowing Strategy and Outturn
 - Investment Strategy and Outturn
 - Treasury Management and Prudential Indicators 2018-19

4.1 Current Situation

- 4.1.1 The Council's external debt and investment position for 1 April to 30 June 2018 is shown below in table 1; more detail is provided in section 4.3 the Borrowing Strategy and Outturn and section 4.4 the Investment Strategy and Outturn.

Table 1: Council's external debt and investment position 1 April to 30 June 2018

	Principal 01-04-18 £m	Average Rate 01-04-18 %	Principal 30-06-18 £m	Average Rate 30-06-18 %
External long term borrowing:				
Public Works Loan Board (PWLB)	77.62	4.70	77.62	4.70
Lender's Option Borrower's Option (LOBO)	19.25	4.65	19.25	4.65
Total external long term borrowing	96.87	4.69	96.87	4.69
Total external borrowing	96.87	4.69	96.87	4.69
Other long term liabilities (LTL):				
Private Finance Initiative (PFI)*	17.64		17.48	
Llynfi Loan**	2.40		2.40	
Other LTL	0.98		0.95	
Total other long term liabilities	21.02		20.83	
Total gross external debt	117.89		117.70	
Treasury investments:				
Banks	7.40	0.58	8.00	0.63
Building Societies	2.00	0.54	3.00	0.67
Local Authorities	21.00	0.64	26.00	0.67
Money Market Fund***	-		2.30	0.56
Total treasury investments	30.40	0.62	39.30	0.65
Net Debt	87.49		78.40	

* (PFI) arrangement for the provision of a Secondary School in Maesteg 15.75 years remaining term

** Loan from the WG Central Capital Retained Fund for regeneration works within the Llynfi Valley which has not yet commenced

***the fund provides instant access

4.1.2 Although not classed as treasury management activities and therefore not covered by the CIPFA Code or the WG Guidance, the Council may also purchase property for investment purposes and may also make loans and investments for service purposes, for example in shared ownership housing, or as equity investments and loans to the Council's subsidiaries. Such loans and investments will be subject to the Council's normal approval processes for revenue and capital expenditure and need not comply with the Treasury Management Strategy. The Council's existing non-treasury investments relate to investment properties and the unaudited balance outstanding at 31 March 2018 was £4.36 million.

4.1.3 It should be noted that the accounting practice required to be followed by the Council requires financial instruments in the accounts (debt and investments) to be measured in a method compliant with International Financial Reporting Standards (IFRS). The figures shown in the above table and throughout the report are based on the actual amounts borrowed and invested and so may differ from those in the Statement of Accounts, which include accrued interest or are stated at fair value in different instances.

4.1.4 The Council's treasury management advisors are Arlingclose. The current services provided to the Council include:-

- advice and guidance on relevant policies, strategies and reports
- advice on investment decisions
- notification of credit ratings and changes
- other information on credit quality
- advice on debt management decisions
- accounting advice
- reports on treasury performance
- forecasts of interest rates
- training courses

4.2 External Context

4.2.1 The interest rate views incorporated in the Council's Treasury Management Strategy for 2018-19, were based upon officers' views supported by a selection of City forecasts provided by Arlingclose. When the Treasury Management Strategy for 2018-19 was prepared in January 2018 it was forecast that the Bank Rate would remain at 0.50% during 2018-19.

4.2.2 The Bank Rate started the financial year at 0.50% and remained at that rate as at 30 June 2018. Arlingclose are forecasting that it is possible that there will be two 0.25% increases in the Bank Rate in 2018-19, one in September 2018 and the other in March 2019 reaching 1% by the end of 2018-19.

4.3 Borrowing Strategy and Outturn for 1 April to 30 June 2018

4.3.1 The Council's primary objective for the management of its debt is to ensure its long term affordability. The majority of its loans have therefore been borrowed from the PWLB at long term fixed rates of interest.

4.3.2 With short-term interest rates lower than long term rates, it is likely to be more cost effective in the short term to either borrow short term loans or use internal resources. Short term and variable rate loans expose the Council to the risk of short term interest rate rises and are therefore subject to the limit on the net exposure to variable interest rates as shown in the treasury management indicators in **Appendix B**. However, with long term rates forecast to rise in the coming years, any such short term savings will need to be balanced against the potential longer-term costs. Arlingclose will assist the Council with this 'cost of carry' and breakeven analysis.

4.3.3 The £19.25 million shown in Table 1 above, relates to Lender's Option Borrower's Option (LOBO) loans which have a maturity date of 2054, however these may be re-scheduled in advance of this maturity date. The LOBO rate and term may vary in the future depending upon the prevailing market rates, the lender exercising their option to increase rates at one of the bi-annual trigger

points and therefore the Council being given the option to accept the increase or to repay the loan without incurring a penalty. The next trigger point is 23 July 2018 and the lender has not exercised this option (current low interest rate environment) however, an element of refinancing risk remains. Following advice from Arlingclose, the Council approached the LOBO's lender for potential repayment options in 2017, however the premium was deemed too excessive to action but the Council would take the option to repay these loans at no cost if it has the opportunity to do so in the future.

The current average interest rate for these LOBO's is 4.65% compared to the PWLB Loans average interest rate of 4.70%.

- 4.3.4 The last time the Council took long term borrowing was £5 million from the PWLB in March 2012 and it is not expected that there will be a requirement for any new long term borrowing in 2018-19, however for cash-flow purposes short term borrowing may be taken. Market conditions have meant that there has been no loan rescheduling so far this year however, in conjunction with Arlingclose, the loan portfolio will continue to be reviewed for any potential savings as a result of any loan rescheduling.
- 4.3.5 The Council is currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loan debt as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This is known as Internal Borrowing. This strategy is prudent as investment returns are low and counterparty risk is relatively high.

4.4 Investment Strategy and Outturn for 1 April to 30 June 2018

- 4.4.1 Both the CIPFA Code and the WG Guidance require the Council to invest its funds prudently and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Council's objective when investing money is to strike an appropriate balance between risk and return, balancing the risk of incurring losses from defaults against receiving unsuitably low investment income.

The major objectives during 2018-19 are:-

- To maintain capital **security**
- To maintain **liquidity** so funds are available when expenditure is needed
- To achieve the **yield** on investments commensurate with the proper levels of security and liquidity

- 4.4.2 The Annual Investment Strategy incorporated in the Council's Treasury Management Strategy 2018-19 includes the credit ratings defined for each category of investments and the liquidity of investments. The Council's investments have historically been placed in short term bank and building society unsecured deposits and local and central government, however, investments may be made with any public or private sector organisations that

meet the minimum credit criteria specified in the Investment Strategy. The Council is diversifying into more secure and/or higher yielding asset classes any new instruments used will be in full consultation with the Council's treasury management advisors.

- 4.4.3 Investment decisions are made by reference to the lowest published long-term credit rating from Fitch, Moody's or Standard & Poor's to ensure that this lies within our agreed minimum credit rating. **Appendix A** shows the equivalence table for these published ratings and explains the different investment grades. Where available the credit rating relevant to the specific investment or class of investment is used, otherwise the counterparty credit rating is used. In the current climate, relying mainly on credit ratings is considered to be inappropriate and the Council understands that credit ratings are good, but not perfect, predictors of investment default. Full regard is therefore given to other available information on the credit quality of the organisations in which it invests, including credit default swap prices, financial statements, information on potential government support and reports in the quality financial press. No investments will be made with an organisation if there are substantive doubts about its credit quality, even though it may meet the credit rating criteria.
- 4.4.4 On a day to day basis, the Council typically has surplus cash balances arising from the cash flow e.g. timing differences between grants being received and making various payments. These are invested on the market via brokers, direct with the institution or held in deposit accounts or a money market fund with instant access. The Council usually invests for a range of periods dependent on cash flow requirements and the interest rates on offer having regard to the Investment Strategy.
- 4.4.5 The Council's primary objective for the management of its investment portfolio is to give priority to the security and liquidity of its funds before seeking the best rate of return. As shown in the tables below, the majority of surplus cash has been held as short term investments with UK Local Authorities, banks and building societies of high credit quality. This has therefore resulted in more of the investment portfolio being moved into investment instruments with lower rates of return but higher security and liquidity.
- 4.4.6 Occasionally, investments are placed with the UK Debt Management Office (DMO - Executive Agency of UK Government) but only for very short term deposits and after all other options have been explored. The interest rates offered by this facility are lower than most other counterparties but this is commensurate with the high level of security and reduced risk offered. It provides another option when examining potential investments and ensures compliance with the Council's investment objective that security takes priority over yield. There were no deposits outstanding at 30 June 2018.
- 4.4.7 Favourable cash flows have provided positive cash balances for investment and as shown above the balance on investments at 30 June 2018 was £39.30 million. Table 2 below details these investments by counterparty type.

Table 2: Investments Profile 1 April to 30 June 2018

Investment Counterparty Category	Balance 01 April 2018 (A) £m	Investments Raised (B) £m	Investments Repaid (C) £m	Balance 30 June 2018 (A+B-C) £m	Interest Received £'000	Average Original Duration of the Investment Days	Weighted Average Investment Balance Apr - June 2018 £m	Weighted Average Interest Rate Apr-June 2018 %
Government DMO	-	25.20	25.20	-	0.81	5	1.30	0.25
Local Authorities	21.00	46.10	41.10	26.00	24.72	205	29.57	0.63
Building Societies	2.00	5.00	4.00	3.00	5.78	99	3.50	0.60
Banks (Fixed Maturity)	5.00	6.00	3.00	8.00	18.45	198	6.13	0.63
Banks Instant Access/Notice Period *	2.40	30.53	32.93	-	3.99	n/a	4.05	0.37
Money Market Fund (Instant Access)*	-	4.30	2.00	2.30	1.72	n/a	1.76	0.53
Total/Average	30.40	117.13	108.23	39.30	55.47	127	46.35	0.59

* An average duration is not shown as there is no original duration as instant access or notice period and money is added and withdrawn to/from these accounts as required by cash-flow

4.4.8 There are four long term investments (original duration of 12 months or more) outstanding at 30 June 2018 totalling £9 million with Local Authorities shown in table 3 below. £5 million maturing in 2019-20 and £4 million maturing in 2020-21. All other investments at 30 June 2018 were short term deposits (including instant access and notice accounts). Table 3 below details these investments by counterparty type based on the remaining maturity period as at 30 June 2018:

Table 3: Investments Outstanding Maturity Profile 30 June 2018

Counterparty Category	Instant Access £m	Deposits Maturing Within 1 Month £m	Deposits Maturing Within 2-3 Months £m	Deposits Maturing Within 4-12 Months £m	Deposits Maturing Within 1-2 Years £m	Deposits Maturing Within 2-3 Years £m	Total £m
Local Authorities	-	12.00	2.00	3.00	5.00	4.00	26.00
Building Societies	-	-	3.00	-	-	-	3.00
Banks	-	4.00	2.00	2.00	-	-	8.00
Money Market Fund	2.30						2.30
Total	2.30	16.00	7.00	5.00	5.00	4.00	39.30

4.4.9 The Council defines high credit quality as organisations and securities having a credit rating of A- or higher. The pie chart below summarises the above table by credit ratings and shows the £39.30 million investments at 30 June 2018 by percentage outstanding. Most Local Authorities do not have credit ratings and unrated building societies (shown as 'BS NR' below) were all approved by Arlingclose whilst the remainder of our investments all had a credit rating of A or above.

4.4.10 The Council participates in a benchmarking exercise with Arlingclose but due to the timing of the report comparative data from other Arlingclose Local Authority clients is not yet available but an update will be provided in the half year report to Cabinet and Council.

4.5 Treasury Management and Prudential Indicators 2018-19

4.5.1 The 2011 Treasury Management Code and Prudential Code require the Council to set and report on a number of Treasury Management Indicators within this report, however, the Council has decided to report on all indicators in this report so the Prudential Indicators are also included. The indicators either summarise the expected activity or introduce limits upon the activity, and reflect the underlying capital programme. **Appendix B** details the estimate for 2018-19 set out in the Council's Treasury Management Strategy and also the projected indicators for 2018-19. These show that the Council is operating in line with the approved limits.

5. Effect upon Policy Framework and Procedure Rules

5.1 As required by Financial Procedure Rule 20.3 within the Council's Constitution, all investments and borrowing transactions have been undertaken in

accordance with the Treasury Management Strategy 2018-19 as approved by Council with due regard to the requirements of the CIPFA's Code of Practice on Treasury Management in the Public Services.

6. Equality Impact Assessment

6.1 There are no equality implications.

7. Well-being of Future Generations (Wales) Act 2015 Implications

7.1 The well-being goals identified in the Act were considered in the preparation of this report. As the report is for information only it is considered that there will be no significant or unacceptable impacts upon the achievement of well-being goals/objectives as a result of this report.

8. Financial Implications

8.1 The financial implications are reflected within the report.

9. Recommendation

9.1 It is recommended that:

- Cabinet note the Council's treasury management activities for the period 1 April 2018 to 30 June 2018;
- Cabinet note the projected Treasury Management and Prudential Indicators for 2018-19

APPENDIX B

1 TREASURY MANAGEMENT INDICATORS 2018-19

- 1.1 The following indicators (which are forward looking parameters) form part of the CIPFA Code of Practice on Treasury Management. They enable the Council to measure and manage its exposure to Treasury Management risks.

The Council needs to set the upper limits to its **Interest Rate Exposure** for the effects of changes in interest rates. There are two treasury management indicators that relate to both fixed interest rates and variable interest rates. These limits have been calculated with reference to the net outstanding principal sums and are set to control the Council's exposure to interest rate risk and are shown in the table below. Fixed rate investments and borrowings for the purpose of this indicator are those where the rate of interest is fixed for at least 12 months, measured from the start of the financial year or transaction date if later and all other instruments are classed as variable. The majority of the Council's investments are less than 12 months and even though interest rates may be fixed for the investment duration these would be classed as variable.

No.		Treasury Management Strategy 2018-19 £m	Projection 31-03-2019 £m
	Total Projected Principal Outstanding on Borrowing 31 March 2019	96.87	96.87
	Total Projected Principal Outstanding on Investments 31 March 2019	20.00	20.00
	Net Principal Outstanding	76.87	76.87
1.	Upper Limit on fixed interest rates (net principal) exposure	130.00	68.62
2.	Upper Limit on variable interest rates (net principal) exposure	50.00	8.25

The Section 151 Officer will manage interest rate exposures between these limits in 2018-19.

- 1.2 A further indicator for Treasury Management measures the **Maturity Structure of Borrowing** and is the amount of projected borrowing that is fixed rate, maturing in each period as a percentage of total projected fixed rate borrowing. This indicator is set to control the Council's exposure to refinancing risk and has been set to allow for the possible restructuring of long term debt where this is expected to lead to an overall saving or reduction in risk.

The 19.87% shown in the table below relates to £19.25 million Lender's Option Borrower's Option (LOBO) loans which may be re-scheduled in advance of their maturity date of 2054, as detailed in paragraph 4.3.3 of the main report. The Code requires the maturity of LOBO loans to be shown as the earliest date

on which the lender can require payment, i.e. the call date of January 2019 (the lender has already confirmed that the option will not be exercised on the next call date in July 2018), so the maturity date is actually uncertain but is shown in the “Under 12 months” category as per the Code.

No	Maturity structure of fixed rate borrowing during 2018-19	Upper limit	lower limit	Projection 31-03-19
3.	Under 12 months	50%	0%	19.87%
	12 months and within 24 months	25%	0%	-
	24 months and within 5 years	25%	0%	-
	5 years and within 10 years	50%	0%	13.91%
	10 years and within 20 years	60%	0%	23.49%
	20 years and above	100%	40%	42.73%

- 1.3 The **Upper Limit for Total Principal Sums invested over 364 days** indicator controls the amount of longer term investments which mature beyond the period end. This is set to control the Council’s exposure to the risk of incurring losses by seeking early repayment of its investments.

No.		Treasury Management Strategy 2018-19 (Limit) £m	Projection Principal Outstanding Over 364 days 31-03-19 £m
4.	Upper Limit for Total Principal Sums Invested for more than 364 days	15	9

2 PRUDENTIAL INDICATORS 2018-19

The Prudential Indicators are required to be set and approved by Council in accordance with CIPFA’s Prudential Code for Capital Finance in Local Authorities.

The 2011 Code requires the Council to formally adopt CIPFA’s Treasury Management Code and this was adopted by Council on 22 February 2012.

2.1 Prudential Indicators for Prudence

- 2.1.1 The following Prudential Indicators are based on the Council’s capital programme which is subject to change.

The Council’s capital expenditure plans are summarised below and this forms the first prudential indicator for Prudence. The total capital expenditure is funded from capital grants and contributions, capital receipts and revenue with the remainder being the **Net Financing Need for the Financial Year** to be met from borrowing.

No.	Prudential indicators For Prudence	Estimate Treasury Management Strategy 2018-19 £m	Projection 31-03-19 £m
1.	Total Capital Expenditure (Non HRA)	33.69	45.17
	Total Capital Expenditure	33.69	45.17
	Financed by :-		
	Capital Grants and Contributions	6.84	8.25
	Capital Receipts	9.18	18.32
	Revenue Contribution to Capital	7.49	10.85
	Net Financing Need for Year	10.18	7.75

The capital expenditure figures have changed from the Treasury Management Strategy 2018-19 as the capital programme approved by Council on 28 February 2018 has been amended to include new approved schemes and to incorporate slippage of schemes from 2017-18 and a change in the profile of funding and prudential borrowing. This has resulted in a decrease in the Net Financing Need for 2018-19 which is a decrease in Unsupported Borrowing.

The process for charging the financing of capital expenditure to revenue is a statutory requirement and is called the Minimum Revenue Provision (MRP). The actual MRP charge needs to be prudent and the methodology is detailed in the Council's MRP policy in the TMS 2018-19. Directorates who receive Council approval for capital schemes via Unsupported Borrowing make annual contributions to the capital costs of their schemes known as Voluntary Revenue Provisions (VRP) or additional MRP. This type of borrowing is only approved when Directorates have the necessary revenue resources to make VRP to fund the capital costs though this will be deferred in some cases until the asset becomes operational in accordance with the Council's MRP Policy.

- 2.1.2 The second Prudential Indicator is the **Capital Financing Requirement (CFR)** for the Council. This shows the total outstanding capital expenditure that has not been funded from either revenue or other capital resources. It is derived from the actual Balance Sheet of the Council. It is essentially a measure of the underlying need to finance capital expenditure and forms the basis of the charge to the Council Fund in line with the Prudential Code.

The MRP requirement for the Maesteg School PFI Scheme and the Innovation Centre will be equivalent to the write down of the liability for the year and is met from existing budgets.

No.	Prudential indicators For Prudence	Estimate Treasury Management Strategy 2018-19 £m	Projection 2018-19 £m
2.	Capital Financing Requirement (CFR)		
	Opening CFR (1 April 2018) adjusted excluding PFI & other liabilities	152.56	152.64
	Opening PFI CFR	17.64	17.64
	Opening Innovation Centre	0.60	0.60
	Total Opening CFR	170.80	170.88
	Movement in CFR excluding PFI & other liabilities	3.62	1.22
	Movement in PFI CFR	(0.64)	(0.64)
	Movement in Innovation Centre CFR	(0.06)	(0.06)
	Total Movement in CFR	2.92	0.52
	Closing CFR (estimated 31 March 2019)	173.72	171.40
	Movement in CFR represented by :-		
Net Financing Need for Year (above)	10.18	7.75	
Minimum and Voluntary Revenue Provisions*	(7.26)	(7.23)	
Total Movement	2.92	0.52	

*Minimum Revenue Provision (MRP) and Voluntary Revenue Provision (VRP) represent the revenue charge for the repayment of debt and includes MRP for the Private Finance Initiative (PFI) and the Innovation Centre

2.2 Limits to Borrowing Activity

2.2.1 The Council's long term borrowing at the 30 June 2018 was £96.87 million as detailed in section 4 of the main report. External Borrowing can arise as a result of both capital and revenue expenditure and timing of cash flows. As the Council has an integrated Treasury Management Strategy there is no association between individual loans and particular types of expenditure. Therefore, the Capital Financing Requirement and actual external borrowing can be very different especially when a Council is using Internal Borrowing as highlighted in paragraph 4.3.5 in the main report.

The **Gross Debt** position (Borrowing and Long Term Liabilities) is shown below:

No.	Prudential indicators For Prudence	Estimate Treasury Management Strategy 2018-19 £m	Projection 31-03-19 £m
	Gross Debt 31 March		
3.	External Borrowing	96.87	96.87
	Long Term Liabilities (including PFI)	20.24	20.27
	Total Gross Debt	117.11	117.14

2.2.2 Within the Prudential Indicators, there are a number of key indicators to ensure the Council operates its activities within well-defined limits. One key control is to ensure that over the medium term debt will only be for a capital purpose. The Council needs to ensure that external debt does not, except in the short term,

exceed the Capital Financing Requirement for 2018-19. The table below shows that the Council is on target to comply with this requirement.

No.	Prudential indicators For Prudence	Estimate Treasury Management Strategy 2018-19 £m	Projection 31-03-19 £m
4.	Gross Debt & the CFR		
	Total Gross Debt	117.11	117.14
	Closing CFR (31 March 2019)	173.72	171.40

2.2.3 A further two Prudential Indicators control the Council's overall level of debt to support Capital Expenditure. These are detailed below and confirms that the Council is well within the limit set :-

- The **Authorised Limit** for External Debt – this represents the limit beyond which borrowing is prohibited. It reflects a level of borrowing that could not be sustained even though it would be affordable in the short term. It needs to be set and approved by Members.
- The **Operational Boundary** for External Debt – this is not an actual limit and actual borrowing could vary around this boundary during the year. It is based on the probable external debt during the course of the year.

No.	Prudential indicators For Prudence	Treasury Management Strategy 2018-19 £m	Projection 31-03-19 £m
5.	Authorised limit for external debt -		
	Borrowing	140	
	Other long term liabilities	30	
	Total	170	
6.	Operational Boundary		
	Borrowing	105	
	Other long term liabilities	25	
	Total	130	
	Borrowing		96.87
	Other long term liabilities		20.27
	Total		117.14

2.3 Prudential Indicators for Affordability

2.3.1 The **Ratio of Financing Costs to Net Revenue Stream** indicator demonstrates the trend in the cost of capital against the total revenue amount to be met from local taxpayers and the amount provided by the Welsh Government in the form of Revenue Support Grant. The estimates of capital financing costs include

interest payable and receivable on treasury management activities and the MRP charged to the Comprehensive Income and Expenditure Statement. The revenue stream is the amount to be met from government grants and local taxpayers.

No.	Prudential Indicator for Affordability	Estimate Treasury Management Strategy 2018-19	Projection 2018-19
7.	Ratio of Financing Costs to Net Revenue Stream	4.55%	4.59%
