### Consultation

	<b>Method</b>	<b>Action Points</b>
<b>Who do you need to consult with (which equality groups)?</b>	<p>The council was mindful that the full impact of the proposed budget reductions detailed in the Medium Term Financial Strategy will potentially be high level, negative and may impact many customers, citizens, visitors and service users from all protected characteristic groups. The council was also mindful that, in order to maximise its reach into its communities and the people who use its services, it needed to build on the knowledge gained from previous consultations and further develop the consultation to include new ways for people to participate and engage with the Council. A wide variety of methods of communication were used including surveys, social media, community engagement stands, town and community council and community group meetings across the county borough. In addition, in order to gather the views of young people, the consultation team attended an all-Bridgend headteacher's event to promote the survey as well as asking individual schools to take part in interactive sessions in order to gather feedback. Details of the consultation were promoted to/shared with the following stakeholders: citizens of Bridgend County Borough, Citizens' Panel members, comprehensive schools, school governors, BCBC cabinet</p>	<p>The details of the full consultation are included in the Report to Cabinet on 17<sup>th</sup> December 2019.</p>

	members/councillors, local businesses, council staff, town and community councils, partner organisations, community and equality groups, local interest/ community groups and local media.	
<b>How will you ensure your consultation is inclusive?</b>	The council was mindful that different groups have different needs in terms of accessibility. The consultation was therefore carried out in as inclusive a manner as possible.	Surveys were available in several formats, including easy-read, large print, standard and a youth version. All were available in paper format and on-line. All were available in English and Welsh. Both were developed to ensure participation with a diverse audience. The easy read and youth versions contained all of the questions but were written in a less complex language and using images where appropriate.
<b>What consultation was carried out? Consider any consultation activity already carried out, which may not have been specifically about equality but may have information you can use</b>	The Council's MTFs consultation ran from 9 September to 3 November 2019. The consultation received 7,437 interactions from a combination of survey completions, engagement at stands held across the county borough, workshops held with comprehensive pupils, engagement at various meetings with different local groups, social media engagement and via the authority's Citizens' Panel.	Please see the consultation report for full details of questions asked and actions.

	<p>10 public engagement stands were held in libraries throughout the county borough. The consultation and engagement team attended 9 community group's meetings to inform people about the consultation and assist attendees to complete paper surveys (where requested) or to share their views via the clicker-pad version of the survey. These included:</p> <ul style="list-style-type: none"><li>➤ Bridgend Carers Café</li><li>➤ OAP Association</li><li>➤ Stroke Association</li><li>➤ Bridge Vision</li><li>➤ Bridgend Coalition for Disabled People (BCDP)</li><li>➤ Bridgend Shout</li><li>➤ Headway</li><li>➤ Tai Chi</li><li>➤ Yarny Army</li></ul> <p>In order to gather the views of young people, the consultation team attended an all-Bridgend headteachers event to promote the survey as well as to ask individual schools to take part in the interactive sessions in order to gather feedback. As a result, comprehensive schools across the County Borough took part in clicker-pad sessions. The consultation team engaged with 1,218 young people.</p>

### Assessment of Impact

Based on the data you have analysed, and the results of consultation or research, consider what the potential impact will be upon people with protected characteristics (negative or positive). Include any examples of how the policy helps to promote equality. If you do identify any adverse impact you **must seek legal advice as to whether, based on the evidence provided, an adverse impact is or is potentially discriminatory, and identify steps to mitigate any adverse impact – these actions will need to be included in your action plan.**

Gender	Impact or potential impact	Actions to mitigate
	<p>The Full Equality Impact Assessment reinforces the detail in the Initial Screening EIA which is that “the impact on women and men may differ based on the demographics of the county borough rather than service delivery/provision. The full impact will be unknown until a consultation exercise has been undertaken with the public where feedback and concerns regarding the proposed budget reductions may be gathered and subsequent mitigating actions considered.” From the 2011 census there were 139,178 people living in the county borough comprising of a gender split of 49.4% male (68,789) and 50.6% (70,389) Female. Many of the proposals will also impact carers, parents and children. The vast majority of caring and parenting responsibilities are undertaken by women; some proposals therefore regarding caring, children and nursery provision are likely to negatively impact women. Within the consultation, 1,442 people responded to the question regarding gender as follows:</p> <ul style="list-style-type: none"> <li>➤ Female – 834;</li> <li>➤ Male – 587;</li> <li>➤ Transgender – 1;</li> <li>➤ Prefer not to say – 20</li> </ul>	<p>There will be an impact on women and men as a result of some of the proposed budget reductions although, potentially, the impact may differ depending on the service being delivered / reviewed. For each of the proposed budget reductions included in the Medium Term Financial Strategy a consultation exercise and an Equality Impact Assessment will be undertaken prior to the final approval (or not) of the proposal by Cabinet / Council. Members will then be in a position to make an informed decision based on a more focussed consultation and engagement exercise.</p>

	<p>Additionally, 15 women said they were pregnant and 14 had given birth in the last 26 weeks.</p>	
Disability	<p>The Full Equality Impact Assessment reinforces the detail in the Initial Screening EIA which is that “from the 2011 census, there were 18,756 people (out of a county borough total of 139,178 people) who considered they had a physical, sensory or learning disability or long term illness. The full impact will be unknown until a consultation exercise has been undertaken with the public where feedback and concerns regarding the proposed budget reductions may be gathered and subsequent mitigating actions considered.” Of the 1,406 people responding to the question on the consultation survey, 177 (13%) stated they considered themselves disabled. Whilst the council is mindful of the potential impact of the budget proposals on disabled people, there are opportunities for us to work with our third sector partners to deliver an alternative form of service. The budget proposals will include reviews of services for disabled people.</p>	<p>There will be an impact on people with disabilities as a result of some of the proposed budget reductions. For each of the proposed budget reductions included in the Medium Term Financial Strategy a consultation exercise and an Equality Impact Assessment will be undertaken prior to the final approval (or not) of the proposal by Cabinet / Council. Members will then be in a position to make an informed decision based on a more focussed consultation and engagement exercise.</p>
Race	<p>The Full Equality Impact Assessment reinforces the detail in the Initial Screening EIA which is that “from the 2011 census there are 2000 BAME</p>	<p>There may be an impact on race as a result of some of the proposed budget reductions. The full impact of the budget restrictions is currently unknown however we will continue to monitor the impact and introduce mitigating actions where possible. The council currently provides information in languages other than Welsh, English and British Sign Language. The full impact will be unknown until a consultation exercise has been undertaken with the public where feedback and concerns regarding the proposed budget reductions may be gathered and subsequent mitigating actions considered. The full impact will be unknown until a consultation exercise has been undertaken with the public where feedback and concerns regarding the proposed budget reductions may be gathered and mitigation considered. Further efforts will be made to encourage service users, customers, visitors and staff to disclose information regarding sexual orientation.” From the consultation exercise, the following data was collected:</p> <ul style="list-style-type: none"> <li>➤ Heterosexual / Straight – 1,278;</li> <li>➤ Gay man – 33;</li> </ul>	<p>There is not expected to be an impact on sexual orientation as a result of some of the proposed budget reductions. Age	<p>The Full Equality Impact Assessment reinforces the detail in the Initial Screening EIA which is that “the impact on age will differ and will depend on the nature of the service delivered and the service user. From the 2011 census the age breakdown of people living in Bridgend is:</p> <ul style="list-style-type: none"> <li>➤ 0 – 15 = 18.3% (25,288);</li> <li>➤ 16 – 64 = 63.2% (89,036);</li> <li>➤ 65+ = 18.5% (24,854).</li> </ul> <p>The budget proposals contain some reductions that could potentially negatively impact older and younger people.
