Mrs. P. A. Gillman

6-3-20

Dear Sir

I am writing in to you to object to your drinks application for your proposed community club, if you [redacted] opposite the building and it is a very peaceful street most of the time this alters sometimes when there are parties on the field but we are used to this. The application states that live music or recorded music will be played, but when the doors and windows are opened they might as well be outside. Also there will be a lot of drinking especially on the weekends and if there is a beer garden a lot of that would be outside. As well it is right next to the childrens

park and even if there is a fence between the noise of drinking and a lot of bad language will be heard by the children. Also the length of the opening hours and this is every day even Sundays is ridiculous. The idea of a community club may seem a good idea, but with all the music everyday and drinking may seem a good idea to many, but these people don't live next to this building. When they have had enough of the music and noise they can leave the park and go home. Unfortunately we have no such choice and if really don't want our lives spoilt with all this going on
