An explanation of the themes in the Forward Work Programme is provided overleaf.

Briefing Session requested:

Financial Assessments for all social care packages be arranged for Members of the Committee, to include what happens when the person does not have capacity and Health Board funded care and nursing care funding.

## Explanation of the Four Themes:

The four themes included in the draft Forward Work Programme above are the key principles of the Social Services and Well-being (Wales) Act 2014, which also form the foundation of Care Inspectorate Wales' inspection and performance review activity, and are set out below for Members' information:

\* **Well-being** - To what extent are local authorities promoting well-being, ensuring people maintain their safety and achieve positive outcomes that matter to them? Including timely step down of children from local authority care, supporting older people to return home from hospital.

\*\***People - voice and control** - How well are local authorities ensuring people, carers and practitioners are having their voices heard, making informed choices, and maintaining control over their lives? How is this balanced with the recommendations and requirements made by Public Health Wales and Welsh Government? Can the local authority demonstrate learning is used to inform new ways of working?

\*\*\***Prevention** - To what extent are local authorities successful in promoting prevention and reducing need for increased or formal support from statutory agencies? Including taking all necessary steps to support the upbringing of the child by the child's family and supporting people with mental health issues before they reach crisis.

\*\*\*\***Partnerships** - To what extent are local authorities able to assure themselves the step change in opportunities for partnership working are positively exploited to maximise person-centred planning, ensure integrated service delivery and service sustainability. Opportunities include recent learning from digital advances, partnership working and ability of the health and social care system to advance at scale and pace and work towards a Healthier Wales.
