

## WELL-BEING OF FUTURE GENERATIONS (WALES) ACT 2015 ASSESSMENT

<b>Project Description (key aims):</b>	
<b>Medium Term Financial Strategy (MTFS) 2022-23 to 2025-26</b>	
<b>Section 1 Complete the table below to assess how well you have applied the 5 ways of working.</b>	
<b>Long-term</b>	<p><b>1. How does your project / activity balance short-term need with the long-term and planning for the future?</b></p> <p>The development of the MTFS aims to balance short-term needs in terms of meeting savings targets, while safeguarding the ability to meet longer-term objectives. It provides a financial basis for decision making and aims to ensure that the Council's finances can be as healthy as they can be for future generations. It does this by:</p> <ul style="list-style-type: none"> <li>• Outlining the impact of a number of different funding scenarios (Best, Most Likely and Worst) to provide an element of flexibility to the Council.</li> <li>• Adhering to a clear set of MTFS principles that drive expenditure decisions.</li> <li>• Ensuring that the majority of savings are generated from making smarter use of resources with front line service reductions kept to a minimum and only as a last resort.</li> <li>• The development of a 10 year capital programme which reflects the Council's affordability in terms of capital receipts and borrowing and investment in capital schemes that support the Council's well-being objectives and benefits the County Borough over a longer period.</li> <li>• Protecting front line services as far as possible.</li> </ul>
<b>Prevention</b>	<p><b>2. How does your project / activity put resources into preventing problems occurring or getting worse?</b></p> <p>The MTFS attempts to balance investment in preventative measures against costs of reacting to unanticipated situations in statutory services. Each budget reduction proposal is weighed in terms of the impact on other areas of the Council, on the public and on the Well-being of Future Generations. Where a budget cut in one area of non-statutory prevention would lead to increased costs in another, this is not considered to be good financial management. A number of budget pressures target investment in preventative services, and budget reductions are achieved through remodelling of existing service provision to prevent more costly long term pressures. In addition, the Council's capital programme targets significant investment in refurbishing or replacing highways, buildings and other infrastructure to prevent longer term maintenance costs.</p>

<b>Integration</b>	<p data-bbox="398 172 2018 209"><b>3. How does your project / activity deliver economic, social, environmental &amp; cultural outcomes together?</b></p> <p data-bbox="398 229 2018 368">The Medium Term Financial Strategy is closely aligned to the Council’s Corporate Plan, with explicit links between resources and well-being objectives. The MTFS has been guided by the 3 Well-being Objectives outlined in the Corporate Plan. The development of the Corporate Plan and MTFS are both the responsibility of Cabinet and the Corporate Management Board.</p>
<b>Collaboration</b>	<p data-bbox="398 464 2018 539"><b>4. How does your project / activity involve working together with partners (internal and external) to deliver well-being objectives?</b></p> <p data-bbox="398 560 2018 730">A number of budget reduction proposals are achievable through inter-agency working, with the Third Sector, Social Enterprises, other local authorities and partners. These include joint services across local authorities, and with the Health Service, and new models of working internally to provide more resilient services. A number of services already collaborate with other partners and these continue to improve performance whilst operating with reducing resources.</p>
<b>Involvement</b>	<p data-bbox="398 746 2018 810"><b>5. How does your project / activity involve stakeholders with an interest in achieving the well-being goals? How do those stakeholders reflect the diversity of the area?</b></p> <p data-bbox="398 815 2018 1369">A full consultation “Shaping Bridgend’s Future” was launched on 20 September 2021 and ran until 14 November 2021. The consultation asked citizens to share their views on a range of areas, including performance over the last 12 months, support for business, tourism and the economy, well-being, face to face access to Council services, digitalisation, investment in services, fees and charges, council tax levels and the future of the Council. The intention was to understand what the public felt had worked well, and where we need to continue to make changes or improvements as we recover from the Covid-19 pandemic, to ensure that we deliver effective and efficient services that are right for our communities over the next 5 to 10 years. A wide variety of methods of communication were used including surveys, social media, a number of online engagement sessions, online FAQ sessions as well as videos, radio adverts and media releases. Due to the impact of Covid-19 and the restrictions on engaging with residents face to face in the community, the council wanted to make sure that as many people as possible could get involved in the consultation and ensured that accessible versions of the survey were available – large print, easy read and youth, as well as standard versions. Bridgend People First and Bridgend Youth Council supported the consultation team to produce the easy read and youth surveys. An advert was also placed in the Glamorgan Gazette notifying non-domestic rates payers of the consultation, and inviting them to participate, as required by Section 65 of the Local Government Finance Act 1992.</p> <p data-bbox="398 1406 2018 1469">The results were collated and presented to Cabinet on 14 December 2021 in order to further inform decisions on the MTFS.</p>

Section 2 Assess how well your project / activity will result in multiple benefits for our communities and contribute to the national well-being goals
