

WELL-BEING OF FUTURE GENERATIONS (WALES) ACT 2015 ASSESSMENT

Project Description (key aims):	
Medium Term Financial Strategy (MTFS) 2023-24 to 2026-27	
Section 1 Complete the table below to assess how well you have applied the 5 ways of working.	
Long-term	<p>1. How does your project / activity balance short-term need with the long-term and planning for the future?</p> <p>The development of the MTFS aims to balance short-term needs in terms of meeting savings targets, while safeguarding the ability to meet longer-term objectives. It provides a financial basis for decision making and aims to ensure that the Council's finances can be as healthy as they can be for future generations. It does this by:</p> <ul style="list-style-type: none"> • Outlining the impact of a number of different funding scenarios (Best, Most Likely and Worst) to provide an element of flexibility to the Council. • Adhering to a clear set of MTFS principles that drive expenditure decisions. • Ensuring that the majority of savings are generated from making smarter use of resources with front line service reductions kept to a minimum and only as a last resort. • The development of a 10 year capital programme which reflects the Council's affordability in terms of capital receipts and borrowing and investment in capital schemes that support the Council's well-being objectives and benefits the County Borough over a longer period. • Protecting front line services as far as possible.
Prevention	<p>2. How does your project / activity put resources into preventing problems occurring or getting worse?</p> <p>The MTFS attempts to balance investment in preventative measures against costs of reacting to unanticipated situations in statutory services. Each budget reduction proposal is weighed in terms of the impact on other areas of the Council, on the public and on the Well-being of Future Generations. Where a budget cut in one area of non-statutory prevention would lead to increased costs in another, this is not considered to be good financial management. A number of budget pressures target investment in preventative services, and budget reductions are achieved through remodelling of existing service provision to prevent more costly long term pressures. In addition, the Council's capital programme targets significant investment in refurbishing or replacing highways, buildings and other infrastructure to prevent longer term maintenance costs.</p>

Integration	<p>3. How does your project / activity deliver economic, social, environmental & cultural outcomes together?</p> <p>The Medium Term Financial Strategy is closely aligned to the Council’s Corporate Plan, with explicit links between resources and well-being objectives. The MTFs has been guided by its current and draft well-being objectives. The development of the Corporate Plan and MTFs are both the responsibility of Cabinet and the Corporate Management Board.</p>
Collaboration	<p>4. How does your project / activity involve working together with partners (internal and external) to deliver well-being objectives?</p> <p>A number of budget reduction proposals are achievable through inter-agency working, with the Third Sector, Social Enterprises, other local authorities and partners. These include joint services across local authorities, and with the Health Service, and new models of working internally to provide more resilient services. A number of services already collaborate with other partners and these continue to improve performance whilst operating with reducing resources.</p>
Involvement	<p>5. How does your project / activity involve stakeholders with an interest in achieving the well-being goals? How do those stakeholders reflect the diversity of the area?</p> <p>A full budget consultation was launched on 19 December 2022 and will run until 22 January 2023. The aim of the consultation is to seek views on the priority areas for residents, in order to enable us to review and prioritise the budget and make Bridgend ‘Fit for the Future’. It is recognised that budget planning for 2023-24 is more uncertain than ever before, and that the Council is facing even more cost pressures than experienced in previous years, as a result of the cost of living crisis, conflict in Ukraine and worsening economic circumstances. We need to know what has worked well, and where we need to continue to make changes or improvements to ensure that the Council is able to deliver sustainable and effective services for the next five to ten years. The consultation includes an online survey, attendance at engagement events, a social media / web campaign and via the Authority’s Citizens’ Panel, and targeted a range of stakeholders.</p> <p>Respondents are asked to share their views on a range of areas including:</p> <ul style="list-style-type: none"> • Prioritising council services • Council tax levels • How the council has performed over the past 12 months • What should our future priorities be • Digitalisation of council services

	The results will be collated and presented to Cabinet on 7 February 2023 in order to further inform final decisions on the MTFS.
