Report Owner / Corporate Director:							
Responsible Officer:	ANDREW WATHAN HEAD OF REGIONAL INTERNAL AUDIT SERVICE						
Policy Framework and Procedure Rules:	The proposals in this report are in accordance with the policy framework and budget.						
Executive Summary:	 This report provides members of the Governance and Audit Committee with a position statement on the status of internal audit recommendations. A position statement in respect of internal audit high and medium priority recommendations made, implemented and overdue as of 31st October 2024 is detailed in Appendix A. A recommendation is made to enhance a control in order to mitigate the identified risk; until the recommendation is implemented the risk remains. To date 34 medium priority recommendations have been made following the conclusion of audits from this year's annual plan. All have been agreed, 19 have been implemented and there are none overdue. There are currently no overdue recommendations. There are 4 recommendations made in audits completed in 2022-23 which still have a future implementation date. The detail of these are in Appendix B. The monitoring of recommendations is undertaken regularly by the Audit team and any undue delays or issues are highlighted to Senior Management and ultimately this Committee. 						

1. Purpose of Report

1.1 To provide members of the Committee with a position statement on internal audit recommendations made, implemented and outstanding as at 31st October 2024 and consider the information provided in respect of the status of the high and medium priority recommendations made by the Regional Internal Audit Service.

2. Background

- 2.1 In accordance with the Public Sector Internal Audit Standards, the internal audit activity must assess and make appropriate recommendations to improve the Council's governance, risk management and internal control. The Regional Internal Audit Service (RIAS) Strategy states that the implementation of agreed recommendations will be monitored.
- 2.2 Recommendations are made at the conclusion of an audit review if it is felt that improvements should be made to mitigate risk and strengthen controls. Recommendations are included, if appropriate, in the final audit report and recipients are asked to provide responses to indicate whether they agree with the recommendations and how and when they plan to implement them. To assist managers in focussing their attention, each recommendation is classified as being either high, medium or low priority.
- 2.3 Table 1 shows the recommendation categorisation as follows:

Table 1 – Recommendation Categorisation

Risk may be viewed as the chance, or probability, of one or more of the organisation's objectives not being met. It refers both to unwanted outcomes which might arise, and to the potential failure to realise desired results. The criticality of each recommendation is as follows:

High Priority	Action that is considered imperative to ensure that the organisation is not exposed to high risks.
Medium Priority	Action that is considered necessary to avoid exposure to significant risks.
Low Priority	Action that is considered desirable and should result in enhanced control.

- 2.4 To ensure maximum coverage of the annual plan based on the capacity available within the team, the RIAS monitors the implementation of the high and medium priority recommendations, but the low priority recommendations are left to management to successfully implement.
- 2.5 Once the target date for implementation has been reached the relevant Officers will be contacted and asked to provide feedback on the status of each agreed high and medium priority recommendation. The implementation of these recommendations is monitored using MK Insight internal audit software to ensure that improvements are being made.
- 2.6 Any audits concluded with a *No Assurance or Limited Assurance* opinion will also be subject to a follow up audit.

This recommendation is now included within the 14 having a future date within Table 3.
