Executive Summary:	The Social Services Representations and Complaints Annual Report for 2025/26 provides a review of the effectiveness of the social services complaint's procedure and a summary of statistical information relating to the complaints and representations dealt with during the reporting period. The report includes - • numbers of complaints and representations received and resolved at each stage; • adherence to timescales; • the nature of the complaints and representations, and; • a summary of the lessons learned and actions taken by the Authority in relation to the complaints and representations received. The report also provides a cross-section of feedback across the Directorate in the form of comments and compliments.

1. Purpose of Report

- 1.1 The purpose of this report is to present to Cabinet the 2025/26 Annual Report on Social Services Representations and Complaints for approval. The Annual Report is attached as **Appendix 1**.

2. Background

2.1 Members will be aware that there is a requirement for local authorities to have in place procedures for considering any representations or complaints made in relation to the discharge of their Social Services functions. This Annual Report relates to Social Services representations and complaints received that have been handled in accordance with the Welsh Government Complaint Guidelines "*A Guide to Handling Complaints and Representations by Local Authority Social Services*" which came into effect on 1st August 2014. The guidance supports the implementation of the Social Services Complaints Procedure (Wales) Regulations 2014 and the Representations Procedure (Wales) Regulations 2014. The Regulations outline a two-stage process in line with the Health Services Complaints Procedure.

2.2 The key elements of the Social Services Representations and Complaints Procedure are to:

- respond to Stage 1 complaints within 15 working days of the date of resolution (10 working days permitted to meet/discuss with the complainant to achieve a resolution).
- complete Stage 2 independent complaint investigations within 25 working days.
- work collaboratively with colleagues within the Directorate and in other Directorates of the Authority, the NHS and liaise with external bodies such as the Public Services Ombudsman for Wales and Care Inspectorate Wales to provide a 'seamless' complaints service.
- monitor performance of complaints handling, learning from complaints and using this learning to improve services for everyone who uses them.

Where complainants have exhausted the complaints procedure, the complainant has the right to refer their concern for consideration by the Public Services Ombudsman for Wales.

2.3 From the Annual Report, members will note that a strong emphasis is placed not just upon complaints, but also on the comments and compliments providing a balanced view. Services across the Directorate are keen to learn from the information gathered and use this to inform service improvements as well as future service developments.

2.4 The Annual Report also contains management information relating to complaints addressed in accordance with the Authority's Corporate Complaints Procedure, together with information relating to the majority of complaints being addressed and resolved informally (prior to reaching Stage 1 of the complaints procedure). This important and significant work ensures concerns are resolved efficiently, with an agreed resolution whilst preventing complainants from being subjected to the formal complaints procedure unnecessarily.

- 2.5 Statistical information relating to the processing of Member Referrals is provided in the Annual Report. The Representations and Complaints Procedure does not preclude the right of an individual to approach their local Councillor, Member of the Senedd or Member of Parliament who all undertake an important role in handling concerns and queries that individual constituents may have. Member Referrals can range from comments and queries to complaints.
- 2.6 The Annual Report also includes information arising from a cross-section of feedback generated from user/carer engagement exercises undertaken by a range of service areas.
- 2.7 The draft report was presented to the Social Services, Health and Wellbeing Overview and Scrutiny Committee on 10th September 2026.

3. Current situation / proposal

- 3.1 The Annual Report contains statistical information in relation to the representations and complaints received during 2025/26 for both Adult Social Care and Children and Family Services.
- 3.2 The number of representations (complaints, comments and compliments) received during the reporting period is broken down as follows:

27	Statutory Complaints
151	Concerns resolved outside of the complaints procedure
407	Compliments / Comments

This is an increase in the overall number of complaints and concerns received over the last year: 178 complaints and concerns were received in 2025/26 compared to 170 in 2024/25. The report shows an increase in the number of compliments received compared to the previous reporting period; 407 compliments received in 2025/26 compared to 374 in 2024/25. Complaints staff continue to encourage all staff across the Directorate to record and log all compliments received.

- 3.3 An analysis of performance demonstrates that the Directorate continues to achieve an early resolution for the vast majority of people submitting concerns or complaints. The number of matters resolved by this approach in 2025/26 was 151 (84.8%), compared with 143 (84%) in 2024/25 and 141 (77%) in 2023/24. This evidences the continued focus on effective complaints handling via a local, citizen-centered approach.
- 3.4 During 2025/26, 20 complaints were received by the Public Services Ombudsman for Wales; 12 related to Children and Family Services and 8 related to Adult Social Care. None of these complaints progressed to investigation. This is an increase from the 11 complaints received in 2024/25 that did not progress to investigation.

- 3.5 During 2025/26, 1 complaint was addressed through the Corporate Complaints Procedure relating to Children and Family Services. The complaint concerned a data breach.
- 3.6 During 2025/26, a total of 27 complaints were addressed in accordance with the Statutory Social Services Complaints Procedure, equating to 15.2% of all concerns or complaints received. 23 complaints were resolved at Stage 1 and 4 progressed through to Stage 2. Stage 2 is the formal investigation stage requiring the appointment of an Independent Investigator. Information within the report suggests that complaints progressing through the formal Stage 2 process continue to demonstrate a higher degree of complexity.
- 3.7 The report highlights how the Directorate applies lessons learned from complaints within its service areas. During the reporting period, notable examples included strengthening understanding of carers' assessments within Adult Social Care and improving safeguarding referral governance, confidentiality and record keeping within Children and Family Services. The complaints department also continues to work alongside service managers, senior leaders and the Quality Assurance Officer to ensure learning from complaints informs service improvement activity.
- 3.8 The report also highlights a wide range of feedback from people who use social care services which is used to inform service development. The Annual Report details a cross section of the feedback received for a range of services across the Directorate.
- 3.9 The number of Member Referrals received for both Adult and Children and Family Services during the reporting period was 112; 86 related to Adult Social Care and 26 related to Children and Family Services. This represents a decrease from the 131 Member Referrals received in 2024/25.
- 3.10 Independent advocacy support services across Adult Social Care and Children and Family Services continues to be a priority, and the annual report provides details of advocacy activity across both service areas, together with a summary of comments and outcomes achieved.
- 3.11 The majority of the work carried out within the Social Services Representations and Complaints Procedure is undertaken in consultation with legal services, and there is a strong working relationship between the social services complaints staff and the Council's legal department.

4. Equality implications (including Socio-economic Duty and Welsh Language)

- 4.1 The protected characteristics identified within the Equality Act, Socio-economic Duty and the impact on the use of the Welsh Language have been considered in the preparation of this report. As a public body in Wales the Council must consider the impact of strategic decisions, such as the development or the review of policies, strategies, services and functions. It is considered that there will be no significant or unacceptable equality impacts as a result of this report.
